

EADS Defence & Security

The step beyond

EADS Defence & Security main locations*

Location	Employees	Activities
Ulm, Germany	2,800	Activities: airborne systems; missile electronics; radar systems; electronic warfare systems; secure communications and networks; ground and naval systems; mission systems; united monolithic semiconductors
Friedrichshafen, Germany	1,500	Activities: avionics; radars; mobile systems; simulation and training; command and control systems; intelligence, surveillance, reconnaissance; unmanned aerial vehicles; aerial target systems
Munich Region, Germany	800	Activities: simulation and training; secure communications and networks; system integration and test centre; logistics and product support; radar systems; air defence systems
Manching, Germany	3,620	Activities: Avionics electro optics; electronic warfare systems; simulation and networks; military air systems development; system laboratories; system integration and test centre; logistics and product support; radar systems; air defence systems; Eurofighter assembly tests; flight tests, maintenance, repair overhaul service; in-service support for military air systems, simulation and training. Also located on site is Dornier Flugzeugwerft (DFW) – responsible for the maintenance of Breguet Atlantic and NATO E-3A AWACS A/C.
Paris Region, France	2,650	including Elancourt 2,500 (Headquarter DS France), Val de Reuil 150 Activities: secure communications and networks; coastal and naval surveillance; border surveillance and control; global security; system integration and test centre; military mission planning; electronic warfare systems, command and control systems; unmanned aerial vehicles; production and maintenance tests; avionics; test and services
Toulouse, France	450	Activities: avionics testing; engineering; logistics; customer & product support; airline software; MRO business; intelligence, surveillance and reconnaissance; systems with manned and unmanned aerial vehicles; strategic ground segments; reconnaissance aircraft and satellite imagery; digital maps technologies; satellite systems; test and services
Madrid Region, Spain	1,400	including Madrid 1,340, Getafe 60 Activities: secure communications and networks; maintenance, repair, overhaul, materials development; modifications and upgrades; structures and components assembly; final assembly Eurofighter; systems tests; flight tests; in-service product support for military air systems
Newport, UK	800	Information infrastructure solutions, mission systems and solutions services and support, global security, secure communications and networks, systems design centre (NETCOS), innovation works, systems integrations, test centre and safety engineering (APSYS)
Frederick, USA	190	Activities: air drive units, environmental control systems
Mexico City, Mexico	80	Activities: secure communications and networks
Helsinki Region, Finland	300	including Helsinki 250, Jyväskylä 50 Activities: secure communications and networks
Middle East Region	100	Activities: secure communications and networks; border surveillance and control
